**NATURALLY FILTERED
AS PURE AS NATURE INTENDED**

From an area of outstanding natural beauty springs this truly exceptional Natural Mineral Water. Filtered through the deep chalk layers of the beautiful South Downs for a refreshingly pure and natural taste.

South Downs Natural Mineral Water rises from an Artesian Well 420ft below ground. We bottle at source just outside the historic City of Chichester, near to the Kingley Vale National Park on the Sussex/Hampshire Border. Enriched with minerals deep from within the Sussex Downs, it is untouched at source – producing water of unrivalled quality and truly exceptional taste. The natural filtration provided by the deep chalk layers of the Sussex Downs gives us a delicious fresh water that's naturally high in calcium and low in sodium.
